Cybersecurity and Information Assurance
Protect your organization’s most important asset: Its reputation.

IT Modernization
Systems don’t get better with time. Aging technology and the threats they present are the #1 issue that keeps technology leaders up at night.

Strategy & Governance
We can help you see things differently and keep your programs on track.

Professional Services & Management Consulting
Because your organization needs more specialized services.

Strategic and Trusted Partnerships
SD Solutions has a strong network of strategic subcontractor partners to complement our experience and expertise.

Contract Vehicles and Professional Certifications
We have the tools, the knowledge, and the certifications to provide your organization the solutions you’re looking for.

"The contractor’s performance exceeded our expectation. Their level of professionalism remained consistent throughout the contract. Each step and phase of the project was, for the most part, ahead of schedule. This efficiency was of benefit, as a major modification had to be made to this project. Overall, I would state their performance was exceptional." – Acting CFO
